

## Base de datos en postgresSQL:

The screenshot displays the pgAdmin 4 web interface. On the left, the Object Explorer shows the database structure for 'SistemaJudicial', including Databases, Schemas (public), and various database objects like Aggregates, Collations, Domains, FTS Configurations, FTS Dictionaries, and FTS Parsers.

The main panel shows the 'Query' tab for the 'SistemaJudicial/postgres@PostgreSQL 16' connection. The 'Query History' tab is active, displaying a list of queries executed on '15/4/2024'.

The 'Data Output' tab is selected, showing the results of the last query. The results are displayed in a table with the following columns and data types:

codigoexpediente	nombre	apellido	casa	calle	ciudad	departamento
[PK] integer	character varying (50)	character varying (50)	character varying (50)	character varying (50)	character varying (50)	character varying (50)

The 'Messages' tab shows the following message: 'Successfully run. Total query runtime: 134 msec. 0 rows affected.'
